(e) Whenever the building or structure or any part, because of dilapidation, deterioration, decay, faulty construction, or because of the removal or movement of some portion of the ground necessary for the purpose of supporting such building or portion thereof, or for other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning is likely to fall or give away.

(f) Whenever for any reason whatsoever the building or structure or any portion is manifestly unsafe for the purpose for which it is used or intended to be used.

(g) Whenever the building or structure has been so damaged by fire, wind or flood, or has become so dilapidated or deteriorated as to become an attractive nuisance to children who might play therein to their danger, or as to afford a harbor for vagrants, criminals or immoral persons, or as to enable persons to resort thereto for the purpose of committing a nuisance or unlawful or immoral act.

(h) Whenever a building or structure used or intended to be used for dwelling purposes, because of dilapidation, decay, damage or faulty construction or arrangement or otherwise, is unsanitary or unfit for human use or is in a condition that is likely to cause sickness or disease when so determined by the health officer, or is likely to work injury to the health, safety or general welfare of those living within.
